Cornwall and Isles of Scilly Independent Support Service

Statements of Special Educational Need (SEN) have changed to Education, Health and Care Plans (EHCP) for children and young people 0-25 years.

This brings education, health and social care needs into one single legal document.

Our Independent Supporters are friendly, professional and trained to help you through the process.

We can support you to:

- Put together the one page profile required for the plan
- Understand the Local Offer and process for EHCPs
- Transfer a statement of SEN or Learning Disability Assessment (LDA) into an EHCP

We can also provide confidential support to young people age 16+ independently if requested and liaise across a range of services on your behalf to help gather information required for the plan.

Your gateway to Independent Support is through the SENDiass service.

Telephone us on: 01736 751921
