

Similar example of proposed canopy. For reference only.

- General notes:**
- Drawing to be read in conjunction with all other relevant drawings and documents.
 - Main contractor to determine exact location of services/drainage, this should to be confirmed on site prior to commencement of works to avoid tree pit / services conflicts.
 - Contractor to allow for white lining of parking bays.
 - All foundations and base formations to Engineers design and specifications.
 - All drainage details to Civil Engineers specification and details.
 - All manhole covers within paved areas to be recessed. Manhole covers are to withstand the appropriate loading class within any given area, manufacture and product details are to be confirmed with the Engineer and Landscape Architect.
 - External Lighting to Engineers detail and specification.
 - This drawing assumes that the existing site subsoil could be re-used. However this is subject to detailed testing and analysis of the subsoil. If the subsoil is not suitable, imported subsoil will be required in accordance with the soft and base landscape specification.
 - All treatment of softwork areas to comply to BS4428 Code of Practice for general landscape operations.
 - All native shrub & hedge species plant type supplied for designated areas are to be determined by the proposed planting season. (ie bareroot or container grown stock).
 - Works described on this drawing include operations within or close to the root protection areas of very important trees. Excavation to be carried out in accordance with Arboricultural survey requirements. If in doubt, STOP and seek clarification.

Buggy Store

Notes:

Pressure treated laminated timber outdoor shelter canopies with a flat roof made using an opal polycarbonate roof covering.

Polycarbonate roof cladding has a dual function of filtering out 98% of harmful UV rays, whilst at the same time increasing the light flow beneath.

Weleded end frames and purlin section made from heavy duty box section assembled with anti-tamper high strength bolts hot dipped galvanized.

Timber to be in natural finish.

See dwg no. 09101 - Proposed External Works Plan for details and location.
