We would recommend that an appropriate level of medical cover is made available on the site. This would be, in line with the HSE Medical Event Risk Assessment, for an event of this size a suitable first aid kit(s) and a handful of first aiders. In addition, we would recommend base level risk assessments be undertaken for an event (for health and guidance please contact EH directly environmentalhealth@scilly.gov.uk <<mailto:environmentalhealth@scilly.gov.uk>>). In addition the applicants should consider the impact that litter may have on the site, and ensure that there are an adequate number of waste bins provided in suitable locations and emptied regularly.
