COUNCIL OF THE ISLES OF SCILLY

Rechabite Boat Park 2022/2023

RECHABITE BOAT PARK LETTING POLICY

The Rechabite Boat Park is a facility designed to complement the day to day use of the Harbour and boating within the islands. As such the park is not intended to provide long term storage for boats, rather it is intended for those who are permanent residents on the Islands and who have a small sailing craft/ punt which can be used and maintained on a regular basis.

All permit holders must take note of the following conditions on the issue of permits:

The allocated space is intended for the sole use of the permit holder for the day to day storage of their boat/trailer and use is restricted to those given permission by the permit holder to use the permit holders' boat/trailer.

The permit holder may not sub-let their allocated space or allow the permit space to be used for the storage of any material which is not the property of the permit holder.

The permit holder will be responsible for the reasonable upkeep of the site, this will include the maintenance of boats and trailers and the ground encompassed by the permit area so that they are kept free of litter, waste, weeds, stagnant water or accumulation of sand or other detritus.

As the site is intended for those who use their boat on a regular basis, the permit holder should not allow boats or trailers to remain on the site in a state of obvious disrepair, or in a condition where either boats or trailers are no longer fit for purpose or are an obvious eyesore and likely to be the subject of complaint from neighbouring permit holders or passersby.

If justifiable complaints are received or it becomes obvious to the Council that the conditions mentioned above are not being observed, the permit holder will be informed in writing and given a two week period to rectify the situation; thereafter if the site is not returned to a satisfactory condition, the permit will be revoked and the permit holder will be required to vacate the plot without refund.
