Information, Advice and Guidance (IAG) Service Statement of Purpose

At Learn Scilly, our mission is to support our community by providing accessible, high-quality educational opportunities and information and advice to help people to grow and succeed. We are dedicated to fostering lifelong learning, enhancing employability, and promoting personal growth in our unique, remote island setting. By offering diverse and flexible programs, we aim to bridge the gap in employment opportunities, support local businesses, and enrich the lives of our residents. Together, we strive to build a resilient, knowledgeable, and thriving community.

What is IAG?

Information means the provision of information on learning, training and work, without any discussion about the relative merits of the options through:

- printed materials such as leaflets and posters
- audio-visual materials via the internet, Learn Scilly website and social media channels
- verbal information on a face-to-face basis through local centres or via telephone

Advice requires more interaction with the service user, usually on a one-to-one basis. It may require explanation of some of the information provided, how to access and use information, and a recognition of when more in-depth services may be required by the user.

Guidance requires a trained advisor. Learn Scilly does not provide a guidance service but will signpost to mainland partners.
