# Use of Adult Social Care Infection Control Fund

Please return to [scfinance-enquiries@dhsc.gov.uk](mailto:scfinance-enquiries@dhsc.gov.uk) by 26 June.

In the Grant Determination Letter for the Adult Social Care Infection Control Fund, we stipulated that local authorities must provide two high level returns specifying how the grant has been spent and explaining how the expenditure meets the objectives of the fund.

Please complete the white boxes as appropriate and return the table to [scfinance-enquiries@dhsc.gov.uk](mailto:scfinance-enquiries@dhsc.gov.uk) by 26 June.

<b>Local authority</b>	Isle Of Scilly council
<b>Allocation of Infection Control Fund received as of 26 June</b>	26,956
<b>Allocation of Infection Control Fund dispensed as of 26 June</b>	26,956

Under the grant condition, local authorities must allocate 75% of the first month's funding straight to care homes within the local authority's geographical area on a 'per beds' basis, including to social care providers with whom the local authority does not have existing contracts.

<b>Please confirm whether your LA allocated 75% of the first month's funding straight to care homes within the local authority's geographical area</b>	Yes
--	-----

The grant conditions specify that the funding must be used for infection control measures. At least 75% of the grant funding must be used to support the measures listed within the grant conditions, while the remaining 25% may be used on other COVID-19 infection control measures including payments to domiciliary care providers.

	<b>Care Homes</b>	<b>Domiciliary Care</b>	<b>Others</b>
<b>Please indicate the number of providers who have received funding</b>	1	1	0

Please indicate which measures have been used by providers as part of this funding as of 19 June, and the proportion of the funding dispensed to date that has been used for this

	<b>How many providers have used funding for this purpose so far?</b>	<b>What proportion of the LA's allocation has been spent on this measure? Total must equal 100%</b>
<b>Measures to isolate residents within their own care homes</b>	Each resident on returning to the care home has been barrier nursed and supported in isolation to the rest of the home.	
<b>Actions to restrict staff movement within care homes</b>	Working practices have changed to ensure Scilly's care staff and residential care staff movements are within their own designated services	
<b>Paying staff full wages while isolating following a positive test</b>	All staff that have been self isolating have been receiving full pay.	
<b>Other (please indicate below)</b>		
<b>Please list other infection control measures your allocation of the Infection Control Fund has been used for. You might find it useful to refer to the measures outlined in the care home support package.</b>	<p>Infection control</p> <p>Current measures in place are:</p> <ul style="list-style-type: none"> <li>•Admissions or readmissions to the home, either from the community or from hospital, are tested prior to admission and isolated/barrier nursed for up to 14 days and retested if necessary.</li> <li>•Staff are meticulous in their use of PPE and hygiene, and all housekeeping is a continuous daily regime.</li> <li>•Any goods into the home are wiped or left for 72 hours</li> <li>•All food is prepared and served by kitchen staff in PPE</li> <li>•Residents leaving the home are accompanied or provided with PPE and maintaining strict 2m rule from their family (any failure to adhere to this rule would require the resident to isolate or be barrier nursed away from other residents in the home).</li> <li>•Staff encouraged to register for trace and test</li> <li>•The vast majority of staff have been antibody tested.</li> <li>•Rotas changed to reduce staff contact and to maximise time off for isolation</li> <li>•Separation of community staff from the residential staff</li> <li>•Any staff returning from the mainland are kept away from the</li> </ul>	<p>100%</p> <p>That breaks down as 75% of the funds currently being used to support increased infection control within the care home.</p> <p>25% of the funds be used to support increased infection control within the domiciliary care service.</p>

	<p>home and asked to isolate from other staff for 7 days (or 14 if in contact with anyone with covid) and tested at day 3- 5 if possible.</p> <ul style="list-style-type: none"><li>•Only essential visits into the home are permitted such as bereavement visits, these are managed in a carefully coordinated manner by a senior member of staff.</li><li>•Medical care is undertaken through video-link as far as possible, ob's etc. done by Care home staff.</li></ul>
