Dear Lisa

**Screening Opinion – Lower Moors, Isles of Scilly**

National Grid Electricity Distribution intends to install an underground electric cable and electricity substation indicated on the enclosed plan in *Lower Moors, St Mary's Isles of Scilly*. These proposed works fall within Schedule 2 of the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000 (as amended) because it is within an AONB designated site.

In our opinion the proposed development does not require a formal Environmental Impact Assessment but if you consider it appropriate we will submit a supporting Environmental Statement.

Before applying for planning consent using permitted development rights we would welcome your opinion.

Yours sincerely,

Martin Casson  
Estate Specialist
