## Statement of Consultation

---

1. The preparation of a replacement Local Plan for the Isles of Scilly must follow the Town and Country Planning (Local Planning) (England) Regulations 2012<sup>1</sup> (the regulations) and the National Planning Policy Framework (NPPF) 2019. This document sets out the consultation and engagement that has taken place in the preparation and development of a new Local Plan. The Isles of Scilly Local Plan 2015-2030 has been subject to two key stages of consultation with a total of 4 consultation events overall. The stages are listed below. The regulations referred to be below are from the Town and Country Planning (Local Planning) (England) Regulations 2012.
  - **Stage 1: (Regulation 18) Initial Local Plan Review Scoping Report setting out the Issues**
  - **Stage 2: (Regulation 18) Initial Draft Local Plan setting out the proposed policies as well as a number of consultation options**
  - **Stage 3: (Regulation 19) Pre-Submission Draft and responses pursuant to regulation 20**
  - **Stage 4: (Regulation 19) Proposed Submission Draft and responses pursuant to regulation 20.**
2. In accordance with the regulations, this Statement of Consultation sets out how the Council of the Isles of Scilly has undertaken consultation in preparing its Local Plan. It provides an overview on the following:
  - **who was invited to make representations;**
  - **how they were invited to do so; and**
  - **a summary of the main issues raised by the representations.**
3. The summary of how representations made will and have been addressed is set out in the Representation Statement, with full consultations and responses set out in each of the 'consultation responses' documents, which are published in each of the consultation pages respectively online.
4. Whilst not set out as the intention from the outset of the Local Plan review in 2015, the Local Planning Authority (LPA) have carried out two rounds of public consultation at the Regulation 18<sup>2</sup> stage and two rounds of public consultation at the Regulation 19<sup>3</sup> stage. The LPA have adopted Local Development Scheme (LDS) which has been continually adjusted to reflect the intention to carry out additional consultation stages. The first LDS was adopted in April 2015 (LDS1):
  - **LDS1, adopted and published in April 2015**
  - **LDS2, adopted and published in November 2016**

<sup>3</sup> <http://www.legislation.gov.uk/ukxi/2012/767/regulation/19/made/data.pdf>

- **LDS3, adopted and published in March 2017**
- **LDS4, adopted and published in August 2017**
- **LDS5, adopted and published in May 2018**
- **LDS6, adopted and published in August 2018**
- **LDS7, adopted and published in December 2018**
- **LDS8, adopted and published in June 2019**

5. The first **Regulation 18** consultation took place in the summer of 2015 and was specifically on the 'issues' and the 'scope' of the Local Plan. The second Regulation 18 was carried out in the spring/summer 2018 on a number of 'options'. Following on from the second round of public consultation Officers continued to work on the Local Plan drawing together existing evidence base, and progressing with updating this and ensuring issues raised during the Regulation 18 stage were addressed.
6. In February 2019 the LPA consulted on the first **Regulation 19** public consultation on the pre-submission draft Local Plan. This was initially intended to be a single Regulation 19 stage ahead of submission. By May 2019, it became clear that the LPA would not be able to submit in accordance with LDS7, which suggested submission to the Secretary of State by May 2019, due to the various amendments that were accepted as required to the Local Plan. In June the LDS was revised to LDS8 to account for a second Regulation 19 stage of public consultation on the proposed amendments to the Local Plan. This took place between August and September 2019.

### **Statement of Community Involvement**

---

7. The Council of the Isles of Scilly's Statement of Community Involvement (SCI) sets out how the Council will involve local people when preparing planning policies. In undertaking the consultation on the Local Plan the Council has followed the principles of the SCI.
  - **Keep the process simple by writing in plain English and explain any planning terms that we need to use.**
  - **Communicate clearly by explaining the reasons why we want to involve you and receive your comments.**
  - **Make it easy for you to get involved by setting out when and where you can provide your comments. We will always try and plan public events so they are accessible to all people and groups and use existing community involvement networks.**
  - **Be inclusive by providing information in an accessible format and giving clear advice on how the planning system works, and encourage involvement from those groups that are not usually involved in the planning process.**
  - **Be transparent and objective through the consideration of reasonable policy options for the Local Plan and presenting all relevant facts about development proposals.**

- **Share information with the community using the Council’s website, in libraries and in the Town Hall whenever this is appropriate and effective.**
- **Make copies of Local Plan documents available to view at key locations throughout the Islands.**
- **Make public involvement is effective by ensuring all comments received by the authority are recorded, read carefully and taken into account.**
- **Strive to meet our targets for the preparation of the Local Plan**

## Stage 1 (Regulation 18) Initial Local Plan Review Scoping Report

8. When preparing a Local Plan local planning authorities must undertake initial consultation in accordance with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012. The regulations state that the local planning authority must notify interested parties and individuals, including the prescribed bodies defined in the Regulations, invite comment, and must take into consideration the representations made in response.

The Town and Country Planning (Local Planning) (England) Regulations 2012

Preparation of a local plan.

18 (1) A local planning authority must:

- (a) notify each of the bodies or persons specified in paragraph (2) of the subject of a local plan which the local planning authority propose to prepare, and
- (b) invite each of them to make representations to the local planning authority about what a local plan with that subject ought to contain.

(2) The bodies or persons referred to in paragraph (1) are:

- (a) such of the specific consultation bodies as the local planning authority consider may have an interest in the subject of the proposed local plan;
- (b) such of the general consultation bodies as the local planning authority consider appropriate; and
- (c) such residents or other persons carrying on business in the local planning authority's area from which the local planning authority consider it appropriate to invite representations.

(3) In preparing the local plan, the local planning authority must take into account any representation made to them in response to invitations under paragraph (1).

9. In this stage the Council invited comments on the operation of its current planning strategy and policies and suggestions on how they could be amended and improved. This engagement ran for a 6 week initial period, which was extended for an additional week in June and July 2015, with the advertised period for the Council to receive written comments.

- Conservation Area Character Statement
- Revised Statement of Community Involvement

The Council of the Isles of Scilly has started to prepare a new Local Plan for the islands to replace The Isles of Scilly Local Plan: A 2020 Vision, which was formally adopted in November 2005.

This work is being undertaken to meet the statutory requirement under the Planning and Compulsory Purchase Act 2004, to prepare a plan for the local area to be known as the Local Development Plan. In accordance with Regulation 18 of Town and Country Planning (Local Planning) Regulations 2012 the Local Planning Authority must notify interested parties of its intention to prepare a Local Plan and invite representations on what the plan should cover.

### Tresco

*"Through the gaps in the trees at the foot of the hill, the long blue shock of the Great Pool lay awaiting. The Great Pool nearly splits the island in two and on either side lies hillside woodland. No other Scillianian island can offer such a walk." (Hunt, J, Islands apart: the Isles of Scilly 1989)*

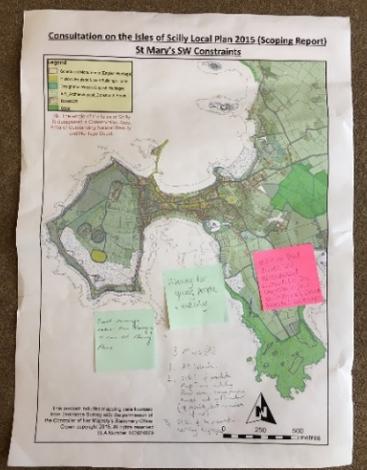

<b>Geography</b>	<b>Public Realm</b>
<p>Tresco, like Bryher, has a roughly linear north / south orientation. The northern headland known as Castle Down features two important castles: the remains of King Charles' Castle and Cromwell's Castle on the western shoreline.</p> <p>The southern end of Tresco is dominated by the wooded upland of Middle Down and Abbey Wood which shelters the house and gardens of Tresco Abbey. The valley between Middle Down and Abbey Hill contains the scenic 'Great Pool', a linear brackish lake surrounded by marshes.</p>	<p>The main entry points to the island are the inter-island boat quays:</p> <ul style="list-style-type: none"> <li>• New Grimsby,</li> <li>• Old Grimsby</li> <li>• Carn Near.</li> </ul>
<b>Heritage</b>	<b>Holiday development</b>
<p>Listed buildings: Tresco has two Grade II* and fourteen Grade II. There are also 30 Scheduled Monuments on the island.</p>	<p>In 2006 following the approval of the Council of the Isles of Scilly Planning &amp; Development Committee, a new mixed use development was built at Abbey Farm in accordance with the Local Plan.</p> <p>This development saw the removal of nineteenth century farm and twentieth century military structures to establish a holiday village at New Grimsby.</p> <p>The Island Hotel was subsequently redeveloped with a complete remodelling providing a series of self-catering suites and a new restaurant at Old Grimsby.</p>

Example of thatched cottages on Tresco.

Above: Abbey Farm (south of New Grimsby).

<b>Settlement</b>
<p>Tresco has three main settlements of New Grimsby, Dolphin Town and Old Grimsby located across the centre of the island with an agricultural settlement located at Borough Farm to the southeast of the island.</p>
<b>Enhancement Opportunities</b>
<p>The Tresco Estate manages the island both as a tourist destination and as a working farm. Both of these enterprises ensure a high level of intervention to maintain the estate in good order.</p>

- 27th April 2016 – The Council Chamber, Old Wesleyan Chapel

## A summary of the main issues raised by the representations

### Headline Indicators

17. A full copy of all the consultation responses is available to view online on the Local Plan Review webpage. This was published at the end of 2016. A total of 80 consultation responses were received, including formal consultation responses from a number of organisations and Statutory Consultees, as set out above. This included responses from 63 individuals of which all of the inhabited islands were represented. Figure 1 below shows the number and location of respondents and Figure 2 sets out the breakdown of respondents by type. This includes permanent residents, second homeowners or organisations.

18. The consultation ended on 24<sup>th</sup> July 2015. Every household was written to directly inviting them to participate in the Local Plan consultation. This letter identified

locations of where copies of the documents could be viewed and obtained. We did not send copies of the Scoping Report to all households. 1750 letters were sent out and Officers hosted drop-in sessions across all of the inhabited islands during the 2<sup>nd</sup> week of the 7 week consultation. This attracted 117 people to speak to us about the Local Plan review process.

19. We are grateful to all the organisations across a range of sectors, as well as individuals for replying to this consultation.

## **Stage 2 (Regulation 18) Proposed Consultation Draft Local Plan**

---

20. This was carried out in accordance with Local Plan Timetable (LDS6) March 2018. In this stage the Council invited comments on the drafted Local Plan including five consultation options. This engagement ran for a 6 week initial period, with the advertised period for the Council to receive written comments.

### **When we carried out consultation**

---

- **16th March 2018 to 11th May 2018**

### **What we consulted on**

---

21. The second round of consultation was undertaken in accordance with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012. For this round of consultation and engagement the Council published the Draft Isles of Scilly Local Plan and interim Sustainability Appraisal for comment. The full list of consultation documents included:

- **The Consultation Draft Local Plan 2015 - 2030 - Full Version of this Document including Proposals Maps (see below) as well as a Summary Document**
- **Sustainability Appraisal including Habitat Regulations Assessment of the Draft Local Plan 2015 - 2030 - including Appendices as well as a Non-Technical Summary**
- **Equality Impact Assessment (EqIA)**
- **Habitat Regulations Assessment (HRA)**
- **HRA Appendices**
- **Proposals Map A Proposed Housing Allocations**
- **Proposals Map B Proposed Settlement Boundaries**
- **Proposals Map C Proposed Retail Protection Areas**
- **Proposals Map D Proposed Employment Land Protection Area**
- **Proposals Map E Known areas at Risk of Flooding, St Mary's**

23. We contacted a wide range of interested parties and individuals, comprising:

- Elected Members of the Council of the Isles of Scilly,
- neighbouring planning authorities (Cornwall Council),
- prescribed bodies, in accordance with the 'duty to cooperate'
- contacts on the Local Plan Consultation Database (30 contacts) which is comprised of individuals and organisations who have asked to be contacted about planning policy matters, including those who have previously responded to planning consultations, and consultation bodies in accordance with regulation 18 of the Town and Country Planning.

### Prescribed bodies

24. For the purposes of the Duty to Co-operate (DtC) the prescribed bodies who were consulted at this stage included:

### Is our Plan Sound? Your chance to have your say...

**Isles of Scilly Local Plan - Pre-Submission Draft  
Comments invited 22nd February to 5th April 2019**

The Isles of Scilly Local Plan will set out policies that will be used to determine future planning applications and guide the location of new development in Scilly to 2030. It includes policies for new homes and sets out support for new business development, services, minerals as well as policies to protect the environment. The main aim of the plan is to create a Sustainable Scilly into the future.

Last summer, we consulted on a draft of the Local Plan. Since then we have carefully considered people's comments and made some changes to the Plan.

This 'Pre-Submission Draft' is the last time we will be able to try and address your concerns before the plan is finalised and sent to the Secretary of State.

At this stage we need to know whether you think the Isles of Scilly Local Plan is sound. To be sound, the Plan must be positively prepared, with fully justified policies that are effective and deliverable. The plan also has to comply with National Planning Policies.

### How they were invited to do so

64. This round of public consultation specifically did not include off-island drop-in sessions or all-island mail-outs as previously. ### A summary of the main issues raised by the representations

#### Headline Indicators

67. A total of 11 consultation responses were received during this second round of Regulation 19 public consultation. This is an 86% reduction from the first round of public consultation in 2015 to this final round of public consultation. Each consultation event has seen a decrease in written responses in total with an initial 47% decrease between 2015 and 2018, a further 45% decrease between 2018 and 2019 and a further 54% decrease in responses in 2019.

68. With each round of public consultation there has been a steady decrease in written responses received from the community and individuals who have interest in the islands. Initially in 2015 there were 65 written responses from the community, which included some responses from visitors to the islands. In 2018 and 2019 such responses fell away and there has been a sharp decrease of 92% in overall responses received from the community from 2015 to 2019.

Consultation Stage	Total number of responses from the Community/Individuals	Percentage Change
<b>2015 Reg. 18 (1)</b>	65	
<b>2018 Reg. 18 (2)</b>	25	-61%
<b>2019 Reg. 19 (1)</b>	10	-60%
<b>2019 Reg. 19 (2)</b>	5	-50%

69. Responses from Statutory Consultees, when considering the total list of 36 (set out in the table below) is also down on previous years. In the last round of public consultation we received 5 consultation responses including from Natural England, Cornwall Council, Sport England, Devon and Cornwall Constabulary

and the Woodland Trust. It has to be assumed that those statutory consultees who did not comment further at this final round of public consultation were satisfied that any outstanding issues have been sufficiently addressed.
