11. Foul Sewage	12. Assessment of Flood Risk
Please state how foul sewage is to be disposed of:  Mains sewer  Septic tank  Other	Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)  Yes  No
Package treatment plant	If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.
Are you proposing to connect to the existing drainage system?  Yes  No	Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?  Yes  No
If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):	Will the proposal increase the flood risk elsewhere?
	How will surface water be disposed of?  Sustainable drainage system  Existing watercourse
	Soakaway Pond/lake
	Main sewer
13. Biodiversity and Geological Conservation	14. Existing Use
To assist in answering the following questions refer to the guidance	Please describe the current use of the site:
notes for further information on when there is a reasonable likelihood that any important biodiversity or geological	GARDON OF EXISTING
conservation features may be present or nearby and whether they are likely to be affected by your proposals.	DWALING.
Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved	Is the site currently vacant?
and enhanced within the application site, or on land adjacent to or near the application site?	If Yes, please describe the last use of the site:
a) Protected and priority species:  Yes, on the development site  Yes, on land adjacent to or near the proposed development	
No	When did this use end (if known)?  DD/MM/YYYY
b) Designated sites, important habitats or other biodiversity features:  Yes, on the development site	(date where known may be approximate)  Does the proposal involve any of the following?  If yes, you will need to submit an appropriate contamination
Yes, on land adjacent to or near the proposed development	assessment with your application.
No	Land which is known to be contaminated? Yes
c) Features of geological conservation importance:	Land where contamination is suspected for all or part of the site?  Yes  Yes
Yes, on the development site Yes, on land adjacent to or near the proposed development No	A proposed use that would be particularly vulnerable to the presence of contamination?  Yes  You
15. Trees and Hedges	16. Trade Effluent
Are there trees or hedges on the proposed development site?  Yes	Does the proposal involve the need to dispose of trade effluents or waste?
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?  If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BSS837: Trees in relation to	If Yes, please describe the nature, volume and means of disposal of trade effluents or waste
construction - Recommendations'.
