RE Well Cross Yard P/14, 1009 FUL 17/2/14

I would like to register my objection for the proposal of two flats in "Well Cross". The yard will have open access and this will affect the Security of the rear of the commercial premises @ Corner Strand backing onto the well cross yard. In my property the rear door has often to be left open to allow air circulation in hot summer days.

To allow to residential flats, in what is a commercial yard is not good planning. This flats would be better if they were located elsewhere in more suitable surroundings.
