	The job proposing to connect to the existing drainage system.									

16. Assessment of Flood Risk								
Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency standing advice and your local planning authority requirements for information as necessary.) Yes No								
If Yes, you will need to submit an appropriate flood risk assessment to consider the risk to the proposed site.								
Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?								
Will the proposal increase the flood risk elsewhere? Yes No								
How will surface water be disposed of?								
Sustainable drainage system Main sewer Pond/lake								
Soakaway Existing watercourse								
17. Biodiversity and Geological Conservation								
To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.								
Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, OR on land adjacent to or near the application site:								
a) Protected and priority species								
Yes, on the development site Yes, on land adjacent to or near the proposed development No								
b) Designated sites, important habitats or other biodiversity features								
Yes, on the development site Yes, on land adjacent to or near the proposed development No								
c) Features of geological conservation importance								
Yes, on the development site Yes, on land adjacent to or near the proposed development No								
40 February								
18. Existing Use Please describe the current use of the site:								
harbour masters office, waiting room, public toilets and showers all other areas vacant								
Is the site currently vacant?								
Does the proposal involve any of the following? If yes, you will need to submit an appropriate contamination assessment with your application.								
Land which is known to be contaminated? Yes No Ves No Yes No No Yes No No No No No No No No No N								
A proposed use that would be particularly vulnerable to the presence of contamination? Yes No								
The separate and the first work as particularly varieties to the prosoned of contamination.								
19. Trees and Hedges								
Are there trees or hedges on the proposed development site? Yes No								
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? Yes No								
development or might be important as part of the local landscape character? If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the								
accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.								
20. Trade Effluent								
Does the proposal involve the need to dispose of trade effluents or waste? Yes No								
21. Residential Units								
Does your proposal include the gain or loss of residential units? Yes No								
22. All Types of Development: Non-residential Floorspace								
Does your proposal involve the loss, gain or change of use of non-residential floorspace? Yes No								
Tes W NO								

23. Employment									
If known, please complete the following	information regarding e Full-time	mployees: Part-time		Equivalent	t number of full-tir	no			
Existing employees	0	0		Lquivalerii		nie –			
Proposed employees	0	0	0
