26/8/15

Dear Mrs Walton,

In reference to the planning application for the demolition of the former Carn Thomas Sec. School (P.15/059/FUL) we would like to make one or two suggestions.

1. The pultisporum hedging which is shielding the end of the school remains in place.

2. The proposed hoarding is painted green to blend in with the surroundings.

This will give us a preferred outlook as we understand it could be in place for some time.

3. Is it possible for someone in planning to come and have a look from our garden to see what it will be like?

Yours sincerely,
