

Statement of Purpose from Nikki Banfield and John Jenkins.

To the Isles of Scilly Planning Committee,

RECEIVED BY THE
PLANNING DEPARTMENT
05 AUG 2015

We wish to build a house in order to have secure housing and somewhere we can call a home; house ownership is something we, like most people, aspire to and the dream of owning a house in Scilly is all the more important to both of us as we are from Scillonian families.

The opportunity to build a family home in Holy Vale is a chance for Nikki and I to continue the long standing association that Nikki's family has with the area.

In addition to this we would like to start a family and for this we need a secure family home: we are determined not to rely on social housing; which we know is already stretched. The prospect of starting a family and being able to bring up our own children in the same location as Nikki's childhood would be a dream come true.

The chance to design and build our own home, with our own input and ideas is not an opportunity we take lightly, especially in Scilly, we are very grateful for our situation and will of course make the best of it.

Yours sincerely,

John Jenkins & Nikki Banfield
