I write to register my objection to the proposed plans contained within the above planning applications.

The area is predominantly residential and to develop as suggested would create noise pollution of unacceptable levels mainly during anti social hours. This has already happened with the numbers of staff having been housed in Men-a-Vaur to date. Residents of the cul-de-sac where I live already have to tolerate sewerage overflow issues. I fail to see how the existing system would cope with the influx of up to 40 seasonal workers. I support the proposal that staff should be housed in renovated accommodation on site at Tregarthens Hotel where Management can closely monitor their behaviour.

This development would also be detrimental to those in the immediate area providing successful Self Catering and B&B accommodation in this quiet area.

Hazel Guy
