COUNCIL OF THE ISLES OF SCILLY

**Town Hall, The Parade, St Mary's TR21 0LW
Telephone: 01720 424350 – Email: planning@scilly.gov.uk**

**Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) Order 2010**

PERMISSION FOR DEVELOPMENT

Application No: P/16/045/FUL **Date Application Registered:** 16th May 2016

Applicant: Mrs Lesley Thomas
Sandy Banks Farm
Telegraph Road
Porth Mellon
St Mary's
Isles Of Scilly
TR21 ONE

Site Address: Sandy Banks Farm Telegraph Road Porth Mellon St Mary's Isles of Scilly

Proposal: Re-roofing of leaking slate roof on the north elevation and replacement with blue/black jutland fibre cement slates to match existing south elevation and adjoining extension.

In pursuance of their powers under the above act, the Council hereby **PERMIT** the above development to be carried out in accordance with the following Conditions:

C1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: In accordance with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

C2 All works involving machinery required in connection with the implementation of this permission shall be restricted to between 0800 and 1800 hours Monday to Saturdays. There shall be no works involving machinery on a Sunday or Public or Bank Holiday.

Reason: In the interests of protecting the residential amenities of neighbouring properties.

PRE-COMMENCEMENT CONDITION

C3 Prior to the commencement of the approved development, a scheme including details of the sources of all building materials and the means/location of disposal of all waste arising from building works, shall be submitted to and agreed in writing with the Planning Authority. The development shall thereafter proceed in strict accordance with the approved scheme only.

Reason: This is a pre-commencement condition that requires details to be submitted that were not submitted as part of the application, but are required to fully understand the impact upon landscape and management of waste. This is to ensure those characteristics which contribute to the status of the Isles of Scilly as a Conservation Area, Area of Outstanding Natural Beauty and Heritage Coast are not eroded by uncontrolled mineral extraction or the tipping of waste. In accordance with the requirements of Policy 1 of the Isles of Scilly Local Plan 2005

Further Information – continued over

1. In dealing with this application, the Council of the Isles of Scilly has actively sought to work with the applicants in a positive and proactive manner, in accordance with paragraphs 186 and 187 of the NPPF.
2. In accordance with the provisions of Section 96A of the Town and Country Planning Act which came into force on 1st October 2009, any amendments to the approved plans will require either a formal application for a non-material amendment (for which a fee of £28 would be required) or the submission of a full planning application for a revised scheme. If the proposal relates to a Listed Building you will not be able to apply for a non-material amendment and a new application for a revised scheme will be required. Please discuss any proposed amendments with the Planning Officer.
3. The Applicant is reminded of the provisions of the Wildlife and Countryside Act 1981 and the E.C. Conservation (Natural Habitats) Regulations Act 1994, the Habitat and Species Regulations 2012 and our Natural and Environment and Rural Communities biodiversity duty. This planning permission does not absolve the applicant from complying with the relevant law protecting species, including obtaining and complying with the terms and conditions of any licences required, as described in part IV B of Circular 06/2005. Care should be taken during the work and if bats are discovered, they should not be handled, work must stop immediately and a bat warden contacted. Extra care should be taken during the work, especially when alterations are carried out to buildings if fascia boards are removed as roosting bats could be found in these areas. If bats are found to be present during work, they must not be handled. Work must stop immediately and advice sought from licensed bat wardens in the first instance (R. Williams 01720 424315, M. And A. Gurr 01720 422224) or Natural England (01872 245045). Or, if none is available, The Bat Conservation Trust's National Bat Helpline on 0845 1300 228.
