Thank you for consulting with the AONB Partnership on this proposed development.

There are no specific comments from the Partnership on this application which appears to be a modest addition to a valued and well used facility on Tresco.

The absence of comments by the Partnership should not be interpreted as suggesting that the development raises no issues regarding the AONB designation. This remains a matter for the Council to take fully into consideration, fulfilling its statutory duty in respect to the AONB, in reaching a decision on the application.

Best Regards

For and on behalf of the AONB Partnership

Julian
