

Jenford, Bryher

South Elevation - we would like to replace the existing east end 6 pane window measuring 3150mm wide x 800mm high with fully glazed, wooden framed patio doors (painted white), opening outwards, with a window either side. The patio doors will measure 1494mm wide x 2094mm high. Each window either side of the patio doors will measure 550mm wide x 800mm high. Total width 2594mm.

East Elevation - the existing porch measures 1520mm x 1300mm. We would like to extend the porch to 3620mm x 1300mm, moving the end wall in line with the main exterior wall. The existing door will be replaced with a window measuring 900mm wide x 1000mm high, and a half glazed standard size wooden door would be added adjacent to this new window, to the north.

NO CLADDING REQUIRED

PATIO AREA: TO BE 2.5m x 2.5m, porous surface

Summerhouse: to be discussed, as ~~may~~^{will} leave until 2017/8.

FLUES x 2 ARE BOTH IN MATT BLACK FINISH & HAVE 200mm OUTSIDE DIAMETER
