Re amendment to Planning
Application for PARK VIEW, HUGA
TOWN

We are the owners of 4. Harbour View
Mansions which we have had for the
last 34 years and strongly object to
any change of access to the rear of Park
View. The double door proposal would
mean the use of Harbour View's forecourt
which is not acceptable.

The new owners of Park View bought
the property knowing what access it
had so must have been satisfied with
it as it was. There right of way has
always been down the pathway and

Harbour View had its facade and
that must be retained

The small window from the extension
looks straight into No 1 flat and
that is not acceptable either
