Hello Andrew

Sorry for the omission; door height is 2.300mm.

Kind regards,
Lynn

Dear Lynn,

Thank you for the above application.

Please can you confirm the overall dimensions of the proposed door as the scale is making the door slightly smaller than the 2800mm stated and also confirm if the door in the original location of the loading area would be changing from the approved plan? The plan you have submitted has lost a portion where the page splits so at the moment it looks like a single door not the approved double.

Regards,

Andrew King

Hello Andrew

Thanks for your email.

I had already thought about that parking space (it was going to be mine!).

The new door is for deliveries so I would simply swap the staff space with the loading/delivery parking spot marked on the plan.

Hope that helps

Best wishes,

Lynn
