Dear Ms Walton

Having studied the application for the extension to Roanoke further, can I please add the following points to my previous letter of objection.

This imposing extension to Roanoke would be a complete over-development of the site which would devalue not only ours, but all neighbouring properties.

Mr Coupe, the agent for Mr & Mrs May, in his rambling introduction, says that Mr & Mrs May wish to extend the house for their growing family. If Roanoke is to remain 1 unit then why is there a need for an external staircase? The garage is already being utilised as living space, it would seem that the proposed plans together with the external staircase suggests a separate unit being created.

It is for all these reasons that we strongly oppose this new extension to Roanoke, which would overall have a devastating affect to both our personal lives and to our business

Yours sincerely

Sheila & Chris Thomas
