**Subject:** Planning Application P/15/052/FUL:

Dear Mr Wyborn,

**Planning Application P/15/052/FUL:**

**Land Peninnis Luxury Camping, King Edwards Road, Hugh Town, St Mary's.**

**Application for the change of use from serviced campsite for 7 tents to 7 more robust "pod cabins"**

Thank you for your email and I will try to answer your queries but should you require further clarification and feel it would be helpful to talk anything through then I can be contacted on 07721 501936.

Our existing tents sit on level wooden platforms with services that can be easily connected and disconnected. The proposed pods simply replace the canvas structure, there will be no new infrastructure, concrete or foundations required at all.

The pods will be constructed off island into panels of such a size that they can then be shipped to the islands for assembly, it is anticipated it will take less than a week to assemble each pod with just the internals left for completion.

The completed structure sits on "feet" and remains movable, it is free standing, not fixed, as can be seen on the plans submitted with our planning application.

We do not expect to apply for building regulations or site licence but do require our landlords consent and have a "licence" to that end.

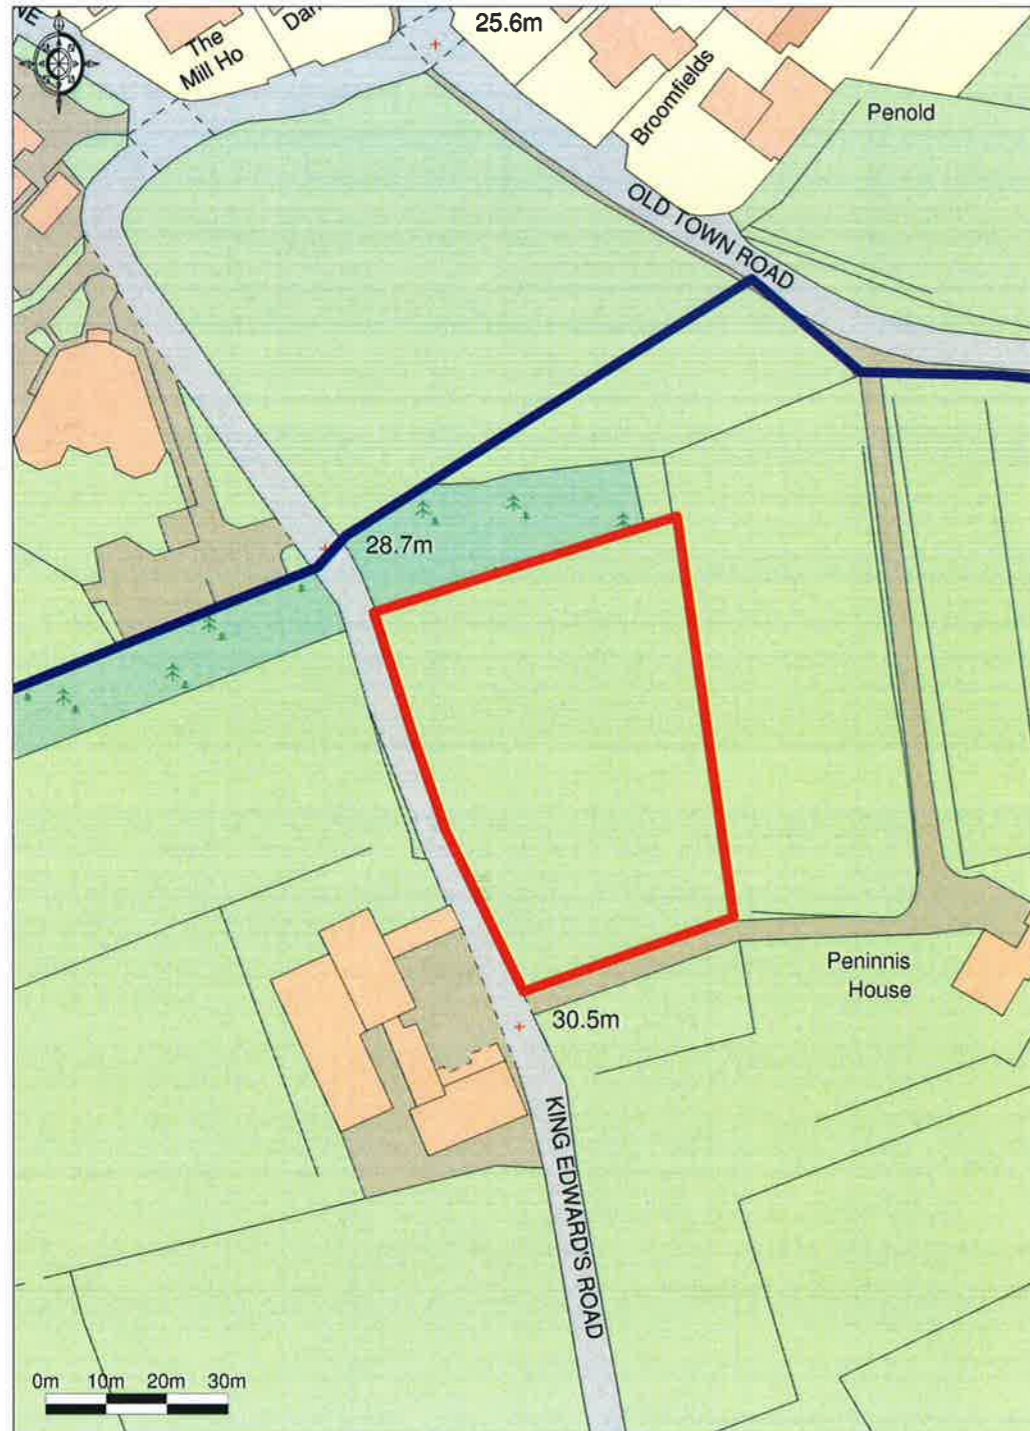

I hope this gives clarification to our proposal but am always happy to try and answer further queries.

Kind regards

Jon May
