Subject: Planning Application Representation; P/16/111 Island Fish, Bryher

Dear Lisa and Andrew

We are writing to confirm our support for the above planning application at Kenyhton, Bryher.

Island Fish have been growing their business for the last two years and now unable to increase this growth , due to restrictions at their home at Newpark.

This is a perfect solution, as close to Bar (carbon footprint), utilising an existing site, maintaining the much admired garden and planning for the future of the island and the family business, as these islands need young people to have work and residence here.

This has been well received by the Duchy and their plans for replacement should allay any fears for lack of residential property.

We are fully supportive of this application and trust that the Council will see it as a further promotion of economic development and maintaining family participation in island life.

Yours sincerely

Patricia and David Matthews
