Re:Planning Ref P/16/121/FUL

Dear Ms Walton

I would like to remind members of the planning committee that the reason for deferment of a decision on the original application of a 3 storey extension to Roanoke was to give the applicants the opportunity to amend plans to a two storey extension. The applicants, Mr & Mrs May have not complied with the committees recommendations of a reduction of size of the extension, only conceding a reduction in size of the 2nd floor dormer window. For this alone, the planning committee should refuse permission for this proposed extension.

My previous reasons for objection to the size of the extension are still relevant, loss of light, overlooking our property, over-development of site etc and I wish them still be taken into consideration.

Kind regards

Sheila and Chris Thomas
