Dear Tristan

Re: Old barn at Porthcressa - to be converted to dwelling.

Further to your enquiry, this is just to confirm that we did a preliminary survey on the Porthcressa barn on 2nd December 2016. The condition of the building did not allow a very thorough survey but we did not consider that bats had been using the building. We agreed that we should do a more rigorous survey once the planning application had gone in. I understand that you will shortly be making the application and I confirm that we shall carry out a comprehensive survey in February or March. We shall be away for most of January and can agree a date for the survey after we return.

Regards

Mike
