Hi Andy

Our reference: 17/00009/PLENQ

P/16/133: Adam and Eve Hairdresser's, Thorofare, St Mary's, Isles of Scilly

At all stages of production, processing and distribution, food is to be protected against any contamination likely to render the food unfit for human consumption or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

It is important that there is adequate ventilation to the hairdresser unit so as not to necessitate the opening of the door between the café unit and the hairdresser unit. In order to maintain complete separation the dividing door should not be used as a source of ventilation to the hairdressers.

Regards

**David Currie**
