

Our Business aim is too add a different element to the community offering alternate use of the premises to incorporate the hair & beauty salon being a small one man band salon, (this will be sectioned off with doors as advised by the local Health and Safety officer) offering a cafe with seating for twelve with take away facilities for locals and visitors in a relaxed atmosphere to enjoy coffee, cakes

(Homebased) Pretzels and the famous strudel. We will support the need for Recycling, separating our waste into the different areas, all our take away containers will be biodegradable, this will be easy to maintain as we have use of the storage area within the premises, this will be invaluable to keep the cafe clutter free.

We don't see any impact with noise or crowds, as we will only be open in the daytime, we would envisage a quick turnover with our customers.

As there is access for delivery to the back of the coop, the goods we have to have delivered will be very small in comparison, there is no problem now, Everything is done to cover any health and safety issues.

There is already a covered

waste sack area which is emptied ~~Regularly~~
by the Council Refuse Collection.
