Subject: Planning representation

Dear Planning Officer

Re: Planning Application P/17/040

Further to amended plans to the above planning application, my mother, Mrs Griggs, and I have both had sight of the amendments and we would like to register our support for these plans provided the roof will not be higher than the original application. We are still of a mind that these plans are in sympathy with, and improve, the area.

Regards

Rhona Holland.
