Dear Administrator,

Re: PLANNING REFERENCE P/17/056/FUL

In a letter dated 28 July a formal response was made by me and Mac Cattermoul of Ice Cottage to the above planning application.

It objectively set out our objections to the planning proposals, in particular the loss of both some sunlight and a huge amount of privacy. That combination was completely unacceptable.

This letter is a personal plea by me. I grew up in Mincarlo and, despite my military meanderings have always kept a close interest in developments in the Carn Thomas area. I consider this proposed plan quite inappropriate for it and the height would make it stick out like a sore thumb.

A single word description of it by me is **monstrosity**, which I respectfully request not be approved. I can at least now understand why the applicant has been so evasive about their plans, as has become increasinlly evident recently.

David Duncan
