We have a few concerns regarding this application.

In the past permission for holiday accommodation was granted to subsidise farm tenancies.

Whilst we fully support more environmentally friendly, sustainable, low impact accommodation in Scilly, we feel that prior to this application being considered there should be some clarity as to what qualifies for development.

As this application demands change of use for a significant portion of the land in the holding; is this supporting an agricultural enterprise or will it be the main form of income from the land? Could then a larger land holder convert a similar proportion to accommodation?
