Churchtown Farm

St Martins

Representation:

I feel that this development will have significant visual impact within the AONB. Unlike the neighbouring similar yurts this site is far less secluded. At present there is very little well maintained hedging around the boundary of the site. Even if hedging were planted and maintained or other screening put in place the view down to Lawrence's beach from the track above the site would be severely compromised. Also reinstating, in any way, the existing, poor quality, construction that exists on the site would be visual detrimental to the surrounding area.
