Subject: Planning Application Representation; P/18/090

Dear Council,

I first heard of this application from someone who lives on the estate of houses next to where the land that the planning application refers to.

This is a quiet residential little area, housing local people, many of whom are elderly. It resides next to an amazing orchard, offering a quiet secluded area, supporting nature, and wildlife something which is much needed in such a built up area.

The first change I noticed was the removal of a large amount of mature trees, by the planning applicant, that as far I was aware not doing any harm, and horrified to now see a bare patch, which has now been replanted?

Now I understand they want to build a holiday let in a small nature reserve, causing complete disruption and noise to its neighbours. The owners are not islanders, the income will not benefit Scilly. If there are any buildings to be built, surely it should be for local housing needs. This is just speculation at its worse and scilly would lose a valuable nature reserve in the heart of this town.
