Subject: Planning Application Representation; P/18/090

Dear Sir/ Madam

I refer to the above no. Planning Application and would like to include my name with the others who are objecting to it on the grounds that:

- a) the sewerage and drainage system are not adequate for the present properties in the area, let alone another property of this size.
- b) the Island's water supply was in crisis last year and the additional property will not help the situation.
- c) access to the property, for both the construction of it and the general use by it's guest, does not appear to be adequate or practical.
- d) I honestly feel that the inclusion of so called facilities for disabled visitors is a red herring, designed to sway the planning decision.

Under the circumstances the right thing to do would be to refuse this application.
