Dear Sirs

Planning permission for development of this site was refused in the recent past so I was surprised to find the new owner of this property following a similar path.

I fully agree with the points made by Mr Sandford in his letter of 20th December. I feel there is little else to be added.

My particular concern is the recurring event of sewerage overflowing from the drain cover within a few metres of my front door. It's flow down Rams Valley is unsightly and a health hazard. The system is quite obviously not coping with the existing catchment area.

Yours faithfully

Mrs Hazel Guy
Scotia, Rams Valley
