Planning Department.

6th January 2019

Planning Referance P/18/090/FUL- Construction of a single residential property for holiday letting purposes at Men-a-vaur, Church Road, Hugh Town, St Marys.

We have the following concerns relating to this application:-

1. The islands sewage system is not fit for purpose and does not meet with current regulations. Putting more strain on the system seems to us to be foolish. The drains have to be regularly rodded even in the winter to maintain a clear flow.
2. The provision of fresh water is woefully inadequate particularly if we have a summer similar to 2018, when usage restrictions were in place.
3. It will be upsetting to see a green oasis in the town disappear particularly for the wildlife that live there.

The above concerns also relate to all future developement applications that put strain on our facilities.
