

6th February 2019

Dear Sir/Madam,

I have read the revised plans re this development.

The applicant may have decided to alter his plans to 2 houses instead of one. Looking at the East facing drawing nothing has actually changed re the design. The building remains the same. The applicant states that my house, 8 Branksea Close and 4 Branksea Close will not be overlooked. The whole building has windows that will overlook the Close, which I commented about in my last objection. The Close being a quiet safe area for residents and especially those with children.

The notice that was nailed on fence in lane to Branksea Close stated that date was deferred till March 5th, full council, reason: -Conservation Area. This should be considered at the meeting. Any part of Scilly that is worthy of that description should be protected.

I know I have no right to light, and no right to a view. Should this development go ahead I will lose both from my lounge window. The only tiny outlook I have. Please take this personal detail into consideration.

Yours faithfully,  
Jenny Purkiss, 8 Branksea Close.
