Subject: P/18/090 Men-A-Vaur

Dear Lisa,

I am writing to tell you I strongly oppose this application made to build on the land behind Men -A-Vaur .

I agree with everything that has already been mentioned in the other letters and just want you to know how sad it makes me feel to think even MORE trees will be cut down . A huge amount of birds feed here . We see bats flying around at night . Hummingbird hawk moths and Monarch butterflies have been spotted in this area and that will all be gone . Why can't people build where buildings have once stood and been demolished ? For example the old secondary school at Carn Thomas . This has been an unsightly mound of rubble for few years now .

If we keep allowing people to build where nature has to be cut down and killed , we will one day no longer be able to breathe . Trees are the worlds lungs ! I know this is only on a tiny scale and may seem irrelevant to world conservation but to me and many other people I know, we owe it to future generations to start caring about our world .

Yours hopefully

Joanne Webb .
