Dear Ms Walton,

Regarding the planing application letter referenced above which we have only just received due to being on the main land for a wedding. We have a number of concerns that may impact on both Madura 1 & 2 as following:-

- 1/ Concerns regarding access to the property both by the builders and ultimately the residence.
- 2/ Lack of parking for any vehicles.
- 3/ Installation of services, water, electricity and telephone and the disruption this would cause.
- 4/ Waste removal and storage.
- 5/ Television reception would be severely affected in Madura 1 and possibly 2 as the only direct view to the TV mast is between the existing flats and the Scillonian Club. The signal even now is very poor but would likely be lost entirely if a new property is built where planned. Being a listed property we understand fitting an external mast and aerial to the roof of Madura would not be allowed to clear the planned 3 story building.

Please keep us informed by email as this will get to us quicker no matter our location.

Best Regards

Mr & Mrs M J Mynn
Madura 1
