Letter of support for planning application.

Ref- UNIT 4, PORTHMELLON INDUSTRIAL ESTATE

As owner of local business Richard Hand Haulage, operating from the Porthmellon Industrial Estate, I would like to give my support to this planning application.

Sourcing staff accommodation for many local businesses over recent years has become a major problem.

To alleviate this situation and allow an established local business to fill job vacancies within their business by offering accommodation with the post is essential.

As Ian has pointed out a shortage of staff is having an impact on suppling an efficient service to local businesses on the islands, which could easily be resolved if he was able to offer accommodation.

Richard Hand
