

Council of the Isles of Scilly Planning Application

Ref: P/19/059/FUL

Consultation Response

Consultee:

Date: 4th October 2019

Ref: P/19/059/FUL

Site: St Martin's Vineyard And Winery, Higher Town, St Martin's, Isles Of Scilly.

Proposal: Erection of 2x shepherd's hut units for use as holiday accommodation connected with the St Martin's Vineyard..

You are being consulted on this application as you may wish to make comments before a decision is made. Should you wish to make any comments on this application, please complete the response form below and return to planning@scilly.gov.uk by 25th October 2019 or by post to the Planning Department, Town Hall, The Parade, Hugh Town, St Mary's, Isles of Scilly TR21 0LW.

I look forward to receiving your comments in due course. If I have not heard back from you by the 25th October 2019 then I will assume you have no comments to make.

Comments:

Thank you for consulting us on this application. We have consulted the Cornwall & Isles of Scilly Historic Environment Record and note that a number of known heritage assets are located nearby, including possible hut circles (MCO30661), a stone row (MCO31015), intertidal peat deposits (MCO31016; MCO31018), a cist cemetery (MCO31010; MCO31022), a field system (MCO31024), and a prehistoric findspot (MCO31023).

We therefore consider it prudent that archaeological watching brief should be carried out during the early stages of groundworks, undertaken by a suitably qualified organisation or individual. We would therefore advise that this application is supported by the submission of a Written Scheme of Investigation setting out the programme of archaeological work to be undertaken in mitigation for the impact of the development upon any heritage assets with archaeological interest. Any Written Scheme of Investigation will need to be approved by the LPA.

If a Written Scheme of Investigation is not submitted prior to determination we would advise, for the above reasons, that any consent issued should carry the condition as worded below of sections A-D inclusive (please do not split into separate Conditions or treat separately), which

Council of the Isles of Scilly

Planning Application

Ref: P/19/059/FUL

includes words recommended by the Association of Local Government Archaeological Officers (ALGAO), as follows:

- A) No development shall take place until a programme of archaeological recording work including a Written Scheme of Investigation has been submitted to and approved by the local planning authority in writing. The scheme shall include an assessment of significance and research questions, and:
1. The programme and methodology of site investigation and recording
 2. The programme for post investigation assessment
 3. Provision to be made for analysis of the site investigation and recording
 4. Provision to be made for publication and dissemination of the analysis and records of the site investigation
 5. Provision to be made for archive deposition of the analysis and records of the site investigation
 6. Nomination of a competent person or persons/organisation to undertake the works set out within the Written Scheme of Investigation
- B) No development shall take place other than in accordance with the Written Scheme of Investigation approved under condition (A).
- C) The development shall not be occupied until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the Written Scheme of Investigation approved under condition (A) and the provision made for analysis, publication and dissemination of results and archive deposition has been secured.
- D) The archaeological recording condition will normally only be discharged when all elements of the WSI including on site works, analysis, report, publication (where applicable) and archive work has been completed.

A pre-commencement condition is necessary in this instance due to the need to ensure that a programme and methodology of site investigation and recording of archaeological features is undertaken before physical works commence on site. This is in accordance with the provisions of NPPF (2019) Chapter 16, paragraph 199 and Isles of Scilly Local Plan policy 1(B).
