Re: Planning Application re Mark Wright – The Store

Dear Lisa,

I have been in contact with Mark Wright and had discussions about his recent planning application for The Store and Parking at Porthmellon Industrial Estate.

As you would be fully aware the Industrial Estate is continually full of congestion, I would like this letter to show my full support for this application as it will benefit my business and many others who currently run businesses out of the Industrial Estate,

If you would like to discuss this with me, please do not hesitate to contact me.

Kind Regards

Stephen Oates
