To whom it may concern

Planning Application 19/064/FUL.

I have spoken to Mark Wright of Wright Construction regarding the Planning Application 19/064/FUL, for his shop.

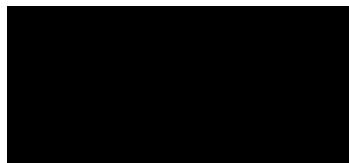

He has explained his reasons for withdrawing the original application and submitting the above planning application which I think is an excellent idea.

We both attended the meeting organised by Craig Dryden from the Council, in which Craig said, he would like all stakeholders to go away and come up with solutions to the congestion problems on the Industrial Estate.

I think the planning application would have a positive effect on the Industrial Estate by providing an alternative entrance so therefore reducing the amount of traffic on the Industrial Estate. This will also alleviate the parking pressures that currently exist.

I would like to offer my full support to this proposal.

Yours sincerely,

Richard Hand
