Subject: Penlee planning amendments

Regards Planning alterations to Penlee Boathouse Plans no P/20/042

Shown on the plans on the south elevation the left hand concealed guttering is still showing the fascia boarding overlapping our property, I object to this . I was informed by Charlotte's father, Clive Sibley that they have written proof that Truan and Charlotte owned all the land underneath the overhanging gutter , so why are they altering the plans ?? I have supplied copies of our deeds to Truan & Charlotte showing the outside wall of Penlee being a Party wall and they cannot go beyond the boundary line .

On the north elevation shown there are no dormers shown on the roof , what are they having done dormers or no dormers ?

Other than these queries we have no objection .
