Re application Men-a-Vaur

I am writing to object to the re submission of planning to the above property.

South West water have put out a plea to save our water, building more property's will only add to this concern. There have been a few water leaks in the area showing the infrastructure is under pressure already.

It would be a shame to loose more green spaces reducing the space for wildlife.

We have problems housing our young local children, building more holiday homes will not help this situation.
