Subject: Men-a-Vaur planning application

Dear Lisa,

I was disappointed to see this application for building holiday lets at the back of Men-a-Vaur again. I have given my views on at least two other occasions for the same location and they haven't changed. My main reason against this is I don't want to see yet more nature and wildlife removed for yet more buildings. I'm sure there are plenty of unused buildings on St Mary's that could be renovated. This would improve the island instead of the opposite. Also, from the view of the visitor, surely it would be a much more pleasant stay to have a lovely garden for barbecues and relaxing rather than back to back concrete?

I have read through the other letters submitted and they all have some very good points - access, water and sewerage, noise, etc. I hope that they are all enough to stop this application going ahead.

Yours faithfully
