

Council of the Isles of Scilly,

Planning Department.

24th July 2020

Planning Reference P/20/048/FUL- Construction of a new accessible dwelling for holiday letting purposes / Men-a-vaur, Church Road, Hugh Town, St Marys.

Dear Lisa,

We were dissapointed to be advised of yet another planning application for the GARDEN of the above property.

We have the following concerns relating to the application -

1. A few years ago there was a meeting relating to the woeful state of the disposal of our sewerage, which did not meet with current regulations. Nothing has happened to improve the situation[as far as we know]. Surely before granting more development the sewerage concerns should be addressed and if there must be more development it should be for local needs.
2. We do think that in general having access for the disabled is a good idea, but having arrived on St Marys, the other islands are inaccessible so they will be unable to explore any further.
3. It will be very upsetting to see this green oasis in the town disappear, particularly for the wildlife that call it home.

R. & M Lorenz
