For the attention of the planning department

RE: Planning Application Number P/20/048, Men-a-Vaur Church Rd St Mary's IOS

Dear Planning Committee,

I am disappointed to learn that plans have again been submitted to build in the rear garden of Men-a-Vaur.

I strongly object to the development of any property being built on this 'Green space'.

As previously stated the extra water being used by another 8+ people and the extra sewage is a huge worry. We already/often have problems in this area as it is.

The noise level will also impact on the residential area of Church Rd, Branksea Close and Rams Valley.

The main objection has to be the loss of Wild Life and Habitat if this build goes ahead on this rare green space in this area of Scilly.

Please take these point into consideration when making your decision.

Yours faithfully  
Sonia Crompton
