Re: P/21/059/HH and P/21/060/LBC
6 Higher Strand
St Marys
TR21 OPT

I am the owner of 7 Higher Strand, next door to the above. I object to both the scale and the style of the proposed building works.

The apex of the proposed new roof is as high as the apex of the existing roof and will dominate and affect the privacy of the garden of my house.

I have no way of checking whether the sunpaths included with the applications are accurate and would invite the planning officer to consider this if possible.

Although the applications refer to the use of scantle tiles, the design of the extension is otherwise not in keeping with an old Scillonian fisherman's cottage.

In the event that the applications are given approval, I would request that such approval is conditional on building works not commencing before 9.30am or continuing beyond 4pm when my house is occupied in order to minimise noise disruption.
