---

Dear Mr King,

We note from the application that the proposal is a change of use so no external building work is proposed and the applicant plans to utilise the existing foul connection to the public network therefore SWW do not have any comment regarding a foul connection.

We note the application states surface water will continue to discharge to the public sewer. SWW would like to see water saving features where possible in this development to protect water resources on St Mary's.

Kind regards

Helen
