Dear sir/ Madam

I am rewriting in objection to planning application P/22/056/COU for siting of a takeaway food outlet on Holgates Green.

This is not anything personal against the applicant, but against the ethos of such a facility on the area know as Holgates Green. The area for some years has facilitated the visiting pilot gigs for gig weekend and the world championships event, othillo, various community and charity events and an 'open' space gathering area for not just our visitors but locals alike.

This could be the Opening of a door for other such take away vans once the museum area has been developed, which would remove the use of this area for all the usual users of the green. It could reduce access on and off the green which could cause a health and safety issue, It will also increase the gathering of seagulls and other vermin with more rubbish and food waste when we are trying to actively discourage rats and seagulls from gathering.

I feel this proposition is detrimental to the area and actually going to reduce our ability to have public events and gatherings in the future and certainly the placing of pilot gigs for next seasons event.

One answer would be to remove the bank at Porthcressa to place bays to offer take away facilities to include new and existing, thus protecting Holgates Green, offering the museum the space it needs to take from existing take away vans and planning for the future. Future proof not damage the existing.

Thank you for your consideration

Hi please can you add to my objections that I note trade effluent is classed as 'not sure if relevant' surely hand washing and waste waster from cooking, any oil overspill, cleaning products and cleaning would have to be disposed of and for fresh water provision, provision for spillage etc... I can't see a space available for this in such a small unit and am wondering if this would be a future consideration by the council for said unit/units.

Please could you add this concern to our comments.

Thank you
