Dear Trevor

Thanks for all the information regarding your new windows and door.

I certainly have no objections to the work.

I am also happy with the arrangements you have made with regards to the delivery of the new windows and disposal of the old ones. I am sure Richard Hand will deal with everything very efficiently.

I am surprised that you have had to get planning permission to do the work. Most of us have had the windows at the rear of our properties changed from wooden to plastic over the years and more recently all the corridor windows without getting planning permission!! Maybe we all just rode our luck and had it done.

Regards

Ann

Ann/Philip,

As you may know we are planning to change the remaining 4 rear windows and back door of Flat 1 this winter, with white UPVC plastic units of the same size and orientation as the existing wooden framed single glazed ones. To that end I have been advised that I (on behalf of Caroline and her sisters), have to submit a full planning application into the Isles of Scilly planning office. Part of that application is for us to let the owners of the flats above flat 1 to be informed of what is being proposed and hopefully to have no objection to the proposed change, which is what I am doing now.

I have attached to this email the formal application that I have sent in today for your information and consideration (apologies it's a lot but that's what

they require).

The officer dealing with the application if you have any concerns or issues is

Andrew King Direct Line: 01720 424457 (please leave a message) Reception: 0300 1234 105

Thanks.

Ann/Tracy,

If planning goes through, the installers will be coming over for about 2 days in the winter to do the install and will be staying in our flat. The new windows and door will arrive the day before delivered by Richard Hand on a pallet and the old windows and door will be put on the pallet and again taken away by Richard. For the 3 or 4 days, is Springfield Court (St. Marys) Ltd ok with the pallet being located in the area under the side kitchen windows of Flat 1? Obviously I have told the installer to make sure the area is left clean and clear.

Thanks

Trevor

Hello Trevor,

Thank you for your email with details of your proposals to replace windows and a door at No 1 Springfield Court.

It all looks good to me. Best regards, Philip
